

Curbside Collections

Services and Pricing

Lowest prices available. Reliable Service. Local Providers!

We strive to keep the environment safe and green while providing superior garbage collection service. Carts will be delivered before service is scheduled to begin. Instruction packets will be delivered with the carts that will include the date your new service will start, collection days, and directions for properly setting out the containers.

Reliable Garbage Collection, Right at your Curb.

Services we provide include street collection for household garbage, back door, valet and catering service, recycling collection and green organics pickup.

No Gimmicks. No Hassle Ordering. Upfront Pricing.

Our pricing is clearly listed in our online form, making your order easy to understand with no surprises.

Automated Collection Service.

Automated collection service consists of specially-designed wheeled roll carts and automated collection vehicles with mechanical arms operated by the driver in the cab of the truck. In an automated collection system, the mechanical arm grabs, lifts, empties, and returns the container to the ground without the roll cart being touched by the driver.

Types of Garbage Collected.

All household garbage items may be placed in the cart. It is recommended that garbage items be bagged and tied first, then placed in the roll cart. This practice will keep your container cleaner and minimize odors. Do not load your container with ashes or coals, recyclable items, household hazardous chemicals or medical waste, tires, paint, or any yard waste such as bagged or loose grass, leaves or small branches.

Benefits of Roll Carts for Garbage Collection.

- Increased convenience for residents: residents no longer need to make multiple trips to the curb.
- Cleaner neighborhoods: roll carts create neater and litter-free neighborhoods.
- Increased recycling: studies show that automated garbage collection programs increase recycling rates by up to 35 percent.
- Worker safety: no need for garbage collectors to exit vehicles or to manually lift heavy containers.
- Less expensive than manual collection service.

Household Garbage Street Collection

Weekly services included with options to add on additional service days, up to five day per week. Sign up for annual billing and receive a 20% discount.

Instruction packets will be delivered with the carts that will include the date your new service will start, collection days, and directions for properly setting out the containers.

Arwood Waste 96 Gallon Toter cart:

- Description: 96 GALLON AW II CART
- Size (l x w x h): 35.25" x 29.75" x 43.25"
- Load Rating: 335 LBs/151.9 KG
- Wheel D: 10"
- There must be at least 3 feet of clearance around the roll cart at curbside in order for the trucks to be able to pick up the roll carts.
- Actual sizes and colors may vary by location.

Back Door Service

With back door service, garbage will be collected directly from your home instead of being rolled to the curb. This service is intended to provide assistance to individuals who are unable to roll their cart to the curbside for pickup. Weekly services included with options to add on additional service days, up to five day per week. Sign up for annual billing and receive a 20% discount.
